

Murinized Anti-mouse PD-1 Antibody (RMP1-14.1, Mouse IgG1) | PA007162.mm1

Catalog No.: PA007162.mm1 | **Isotype:** IgG1, Kappa | **In Vivo Grade**

Recombinant mouse anti-mouse PD 1 / CD279 monoclonal antibodies, whose variable region sequences are murined from the rat anti-mouse PD-1 monoclonal antibody (clone number: RMP1-14), are produced from mammalian cells. The recombinant rat and chimeric mouse versions of the RMP1-14 antibody are also available.

Product Specifications

Catalog No.	PA007162.mm1
Product Name	In Vivo Grade Recombinant Murinized Anti-mouse PD-1 Monoclonal Antibody (Clone RMP1-14.1), Mouse IgG1 Kappa
Clone & Isotype	RMP1-14.1 mouse IgG1, kappa
Synonyms	Mouse Anti-Mouse PD 1 Antibody, Murinized Anti-Mouse PD 1 Monoclonal Antibodies
Applications	immunohistochemistry (IHC), Flow Cytometry (FC), and various in vitro and in vivo functional assays.
Immunogen	The original rat hybridoma (clone name: RMP1-14) was generated by immunizing Sprague Dawley rats with mouse PD-1-transfected BHK cells and using a P3U1 myeloma as the fusion partner.
Purity & Endotoxin	>95% by SDS-PAGE under reducing conditions < 1 EU/mg (LAL method)
Formulation	0.2 µm filtered solution of 1x PBS.
Stability & Storage	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 1 month from date of receipt, 2 to 8°C as supplied. 3 months from date of receipt, -20°C to -70°C as supplied. Shipped with ice pack.

Biological Description & Research Applications

Syd Labs's Murinized Anti-mouse PD-1 mIgG1 monoclonal antibody is a recombinant murine monoclonal antibody targeting the programmed cell death protein 1. The in vivo grade recombinant murinized rat anti-mouse PD-1 monoclonal antibody (mouse IgG1 kappa) was produced in mammalian cells. The murinized anti-mouse PD-1 recombinant antibody has not only the constant regions of the mouse IgG antibodies but also the murinized variable regions.

Syd Labs provides various recombinant Fc silent RMP1-14 antibodies, such as mIgG2c LALAPG, mIgG2a LALAPG, and mIgG1 D265A. Syd Labs also provides custom recombinant antibody production service to produce other engineered versions of recombinant RMP1-14 antibodies. Syd Labs has a promotion program running: Syd Labs provides 1 mg PA007162.m2cLA (In Vivo Grade Recombinant Anti-mouse PD-1 Mouse IgG2c-LALAPG Kappa Monoclonal Antibody (Clone RMP1-14.1)) for free in exchange of results. Please contact us to know more about the free RMP1-14 antibody.

Ordering & Technical Support

For custom volume ordering or inquiries, please visit the product webpage or contact our support team:

- **Product Webpage:** <https://www.ushelf.com/murinized-anti-mouse-pd-1-antibody-pa007162-mm1/>
